

GLOBAL OUTREACH VALUES

Prayer

This is the foundation for our missions efforts and our only confidence for success.

Strategic Focus

Priority in our missions efforts will be given to those people groups of the world in which the largest numbers of people have the least opportunity to hear the gospel.

Holistic Ministry

We seek to show the love of God to the poor and oppressed by compassionately helping to meet their physical needs.

Church Planting

Through focusing on evangelism and discipleship, our goal is to see churches planted among the unreached people groups of the world.

Vision Trips

We believe that taking a trip to experience the sights, sounds, and smells of our strategic partner countries is the best way to get a real vision for our ministries. These trips help us to tangibly see how God is advancing his kingdom to all nations.
